600sqm

Delivery Model

Refurbishment

Location

SCGH - Nedlands

Completed

October 2022

Duration

14 Weeks

OVERVIEW

Queen Elizabeth II Medical Centre Trust (QEII MC) requested the refurbishment of existing spaces within TT Block.

Located at the rear of the main hospital and located on Verdun Street in Nedlands the programme called for the refurbishment to be carried out over the course of 4 individual stages. This was decided to enable normal operations of QEII to continue with minimal disruption.

The scope of works included the demolition and reinstatement of structural frames, mechanical, electrical, fire and security systems. The refurbishment design incorporated a new Audio Visual System, existing flooring was replaced with new carpet, skirting and tiles. The layout was designed to include 8 Individual offices, 4 areas of open plan workstations, a meeting room, boardroom and staff breakout area.

Bold modern colours both on the walls and flooring, throughout the refurbishment create a feeling of luxury whilst keeping a very modern look and feel. High end furniture including workstations, task chairs, meeting room chairs, stools and a boardroom suite completed the project.

Building Refurbishment & Commercial Fit Out - New Construction

Healthcare Specialist - Medical Suites - Dental Practice - Medical & Veterinary Imaging Facilities
